# To You, A Message of Importance!

THIS IS PART FOUR OF OUR QUARTER MILLENNIUM SALE. Part One took place on June 29, 1963, Part Two on August 28, 1963 and Part Three on March 5th. All were a tremendous success. Yes, many bargains were had because in an EXTRAORDINARY sale of this nature, there are always "sleepers" and bargains. Don't say after this sale, "I wish I would have bid on lot so and so, as it went quite reasonable." SEND IN YOUR BIDS NOW.

For the past few years, we have been contacting some of the owners of tremendous collections we have helped build over the years. We are now in our 32nd year as dealers, and through these years have helped form some of the greatest collections ever assembled. Many rarities have passed through our hands, and this sale will welcome back a number of them. We have mentioned to some of these "old timers" that they should have the joy and satisfaction of knowing that while they are still with us, they will see other collectors appreciate the quality that they did. As one of the collectors said to us, "I spent years and years of effort and disregarded the cost in assembling what I thought was an outstanding collection. I hope that the new owners will enjoy some of my prizes, as I have."

We are very happy that we were able to induce some of these true numismatists to part with their collections; and the results are much greater than we had ever anticipated. Because of the tremendous value attached to these collections, we have decided to sell them over a period of five or more sales. You will note that we have left out certain sections in Part I, II and III of our 250th sale, and they will be included in our Part IV and V. For easy reading and reference to individual lots, even though there are a number of consignors, we have placed them numerically in order. *We have combined over a half dozen outstanding collections under one heading, and you will note that we have planned this sale to include some of the greatest rarities, and also commoner varieties so that everyone on our mailing list will have an opportunity to acquire those that interest them.* Our sales are cataloged with YOU in mind, and we want everyone to have an opportunity, whether they collect good, proof, finest knowns or unique.

As in the past, we have adhered to the policy of "not selling names"! We have purposely left out the consignor's names. We believe that a coin should stand on its own merits regardless of what name may be attached to a particular coin. We have refrained from using excessive high quality paper and expensive binding, as naturally this brings the cost of the catalogs up considerably, and someone, somewhere along the line (not the dealer) must bear this cost. Our commission rates are as low as 10%, as we feel that the savings of the printing and mailing costs should be passed on to the consignor. If your collection is for sale, we are prepared to purchase it either for cash or handle it in one of our future auctions.

As in every sale, some items go at bargain prices, therefore may we suggest that you study the catalog carefully and send in as many bids as you wish.

For those bidding in our sale for the first time, may we suggest that you read these first three pages of this catalog, and you will find that YOU, the collector, are the one to be satisfied, and that we do not question the return of any item for any reason whatsoever.

Good luck on your bids, and please be sure that you Airmail your bid before August 26th, so that it will reach us in time.

Sincerely,

A. M. Kagin and Paul Kagin

# IS THIS YOUR FIRST AUCTION CATALOG?

17th EDITION (1964) GUIDE BOOK, "TRENDS" & OTHER AUCTION RECORDS USED  
IN CATALOGING THIS SALE

**Scarce gold, small cents, types, proofs, and scarce currency** seem to be rising the most rapidly at present with most bringing close to listed values and a great number bringing even more. Many are rising from month to month with a number "just not obtainable." The coins most in demand will have the greatest number of bidders and with the law of supply and demand working, these coins keep setting new records.

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these coins come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand at the time of the publication. **The estimated prices are entered only after careful examination of the results in our past sales which reflect the actual and not theoretical value. (PLEASE NOTE THAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASHINGTON QUARTERS, ETC. ARE ESTIMATED AT CATALOG.)** In the final analysis, you the collector, are the one who sets the price.

**BIDS ARE RECORDED AS FOLLOWS:** Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.25. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even tho auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated. Coin collecting is a personal hobby which makes life a little more pleasant. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them as well as any compliments.

**YOUR SUCCESSFUL BIDS WILL INSURE YOUR RECEIVING**

**SUCCESSIVE CATALOGS WITHOUT INTERRUPTION**

## BARGAINS GALORE

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went at bargain prices." While you may not obtain many of these "bargain lots," yet in every sale you may pick up some real bargains.

Sincerely,

A. M. KAGIN and PAUL KAGIN

# YOU MUST BE SATISFIED

Our Sales Are Cataloged With You in Mind. If you have any suggestions, complaints, (yes we receive some now and then), we want to hear them. Having catalogued over two hundred fifty successful coin sales, we believe we are qualified to advise and help you with your numismatic problems. No, we don't "know-it-all" but we do know where to obtain the information we don't have.

We have a number of want lists on hand for the scarce and rare United States coins and currency. Our average commission for obtaining these specimens is only 10 per cent, therefore we believe we can pay the top price for your choice and scarce pieces, no matter how rare. Don't you think it is worth a 8c airmail stamp to find out what we would pay for your outstanding pieces? Naturally we buy collections, too.

## SOMETHING NEW HAS BEEN ADDED

We wish to call your attention to the new service extended as per the bottom of the bid sheet. After receiving requests to apply the amount saved in the awarding of successful bids below the bids authorized we decided to avail this service to all of our clients. It is often exasperating to lose a lot by a few nickels when the amount saved on the successful bids would have been sufficient to increase the original bid to the point necessary to receive the lot. Check the bottom of your bid sheet.

# 1856 FLYING EAGLE CENT

"Trends" refers to the market value as listed in Coin World. Since the Guidebook is issued only once a year, the "trends" value would more accurately reflect the current market. As stated in "trends," it is not meant to be a price list and the author does not guarantee that coins are always available at the listed prices.

## LARGE CENTS 1794

We note an unusually strong demand for this date during the past year or two. Evidently, the newer collectors are also discovering the fascination of collecting the die varieties of this date as did the older generation. In fact, Dr. Sheldon used 1794 as his basic date in establishing his rarity and value scale. May the new owners of these 1794 cents receive as much pleasure and satisfaction as the previous owners.

### LARGE CENTS 1799

The rarest date large cent. We note a marked rise in value during the past year. Judging from the strong demand, this rise should continue during the coming year.

**184. 1799 OVER 98, S-188**, acquired from a leading California dealer's ad in March 1961 Numismatic Scrapbook as **"Very Fine"** at \$975.00. It is fairly close to that and certainly **FAR SUPERIOR TO MOST WE HAVE SEEN**. Unusual with the desirable strike of BOTH sharp date and sharp LIBERTY. We note it has doubled in value since then as it now lists in "trends" at ----- **\$1850.00**

**185. 1799 S-189, Perfect Date**, acquired from same ad as **"Extra Fine. VERY RARE**. I found a record of one selling for **\$10,500.00**. How much better it was than this one I don't know since Dr. Sheldon (who wrote the book on large cents) states the best one is about uncirculated. The owner paid **\$1950.00** for this coin from that March 1961 ad. This specimen is also the unusual strike with BOTH Sharp Date and Sharp LIBERTY. Since 1799 large cents have doubled in value the last three years, **THIS RAREST DATE IN EXTREMELY RARE CONDITION** could now bring around ----- **\$4000.00**

### LARGE CENTS 1800

- 187. 1800 OVER 179, S-196**, Wide overdate, extremely fine. **SCARCE**, particularly so choice. Possibly the **SIXTH or SEVENTH FINEST KNOWN**. ----- **100.00**

## 1929 NATIONAL BANK NOTES, SMALL SIZE

TWO TYPES ISSUED. TYPE I issued 1929-1933 and bear the charter number twice in black. TYPE II issued 1933-1935 and have the charter number overprinted twice in brown in addition to the two times in black. A most interesting series becoming increasingly popular. Most collectors seem to collect notes issued from their state or attempt to collect one note from each of the 50 states. With the changes taking place in our currency during 1963 and 1964, we note a sharp increase in interest in currency.

## "1902-1908" ON BACK NATIONALS

Notes of this EMERGENCY issue came out in 1908-1916 compared to 1916-1929 for the blue seals without "1902-1908" back, making the "1902-1908" nearly twice as scarce as the plain 1902. We note the catalog is finally beginning to recognize the relative scarcity of this issue but believe the ratio must still be higher to properly reflect the comparative values.

## LIBERTY WALKING HALF DOLLARS 1916-1947

The guidebook states page 138, "Uncirculated, well-struck specimens worth 25% to 50% above prices listed." The reason for this statement is that the great majority of this series comes weekly struck (a similar situation exists in the Buffalo nickels and Liberty Standing quarters).

### 1875-S OVER CC TRADE DOLLAR

1319. 1875-S OVER CC, BRILLIANT BLUISH GOLDEN UNCIRCULATED WITH PROOFLIKE SURFACE. According to the editor of the Standard Catalog of U.S. Coins, ONLY 3 SPECIMENS ARE KNOWN, only one which has not seen circulation. COMPARE THIS RARITY WITH THE 1938-D OVER S NICKELS OF WHICH MANY THOUSANDS EXIST! Perhaps this was the basis of the owner arriving at his valuation of 5,000.00. At any rate, bid what you feel it is worth. What the next Standard Catalog will value it at, your guess is as good as ours.

### GOLD CERTIFICATES

Since the new directive has been released making it legal to buy and sell gold certificates, we have received a number of want lists. Judging from the small amount of notes outstanding compared to the other types of currency, GOLD CERTIFICATES, PARTICULARLY IN THE CHOICER STATES OF PRESERVATION, SHOULD SHOW AN APPRECIABLE RISE IN VALUE DURING THE NEAR FUTURE. There just doesn't appear to be any large holdings which were laid away by collectors as was done in other types of currency. This, in addition to those which the government forced people to redeem, explains the very small supply of gold notes available. Fortunately, we were recently able to persuade a leading collector to make available this OUTSTANDING COLLECTION — ONE OF THE MOST COMPLETE EVER OFFERED — GOING BACK PRIOR TO 1933. Who knows how many years will again elapse before another such opportunity occurs. PRICES REFER TO THOSE OF THE LEADING AUTHORITY ON CURRENCY WHOSE AD APPEARS ON PAGE 46 OF THE JULY 8, 1964 COIN WORLD.
